

DIE BOARDS

FormLine

UltraFlat™ Maple was developed to offer Diemakers and Converters a flatter alternative for building high quality steel rule dies. UltraFlat™ Maple is manufactured by Marion Plywood in Wisconsin, one of the most sophisticated veneer & plywood mills in the world. Marion has the unique ability to utilize automation to control the entire process from log to finished product. State-of-the-art computerized machines with integrated computerized control parameters eliminate product variability, producing the world's best veneer and ultimately the world's flattest plywood/dieboard.

DIE BOARDS

Carton Craft Supply is one of the few distributors that have access to UltraFlat™ Maple.
